| Name of UCITS management company: | VanEck Asset Management B.V. is authorised in the Netherlands and regulated by the Dutch Authority for the Financial Markets ("AFM"). |
| Date of production of the KID: | 01 January 2023 |

What is this Product?

| | |
|----------------------------------|---|
| Type: | The Product is a UCITS sub-fund of the Manufacturer, an umbrella fund structure comprising different sub-funds. The Product is authorized in Ireland and regulated by the Central Bank of Ireland (CBI). Under Irish law, the Manufacturer has segregated liability between its sub-funds. While the Key Information Document is drafted on the level of each sub-fund, Prospectus and Financial Reports are drawn up on the level of the Manufacturer. The Management Company does currently not offer an exchange of shares for shares of another sub-fund. |
| Term: | No fixed term. We are entitled to terminate the management of the Product by giving at least one month notice to investors as published at least on our website. |
| Objective: | <p>The Product's investment objective is to replicate, before fees and expenses, the MVIS® Global Digital Assets Equity Index (the "Index").</p> <p>In order to seek to achieve its investment objective, the Manager will use a replication strategy by investing directly in the underlying equity securities of the Index being the stocks, American depository receipts (ADRs), and global depository receipts (GDRs). Such equity securities must be issued by companies who generate at least 50% of their revenues from the global digital assets segment, semiconductor and online money transfer companies listed or traded on the Markets referred to in Appendix II of the Prospectus. For the avoidance of doubt, where the Index already holds such equity securities, the Index will seek to remove the security when the percentage of revenue generated from the global digital assets segment, semiconductor and online money transfer companies drops below 25% of the relevant companies revenues.</p> <p>Where it is not practical or cost efficient for the Product to fully replicate the Index, the Manager may utilise an optimised sampling methodology. Where it is not practical or cost efficient for the Product to fully replicate the Index, the Product will not avail of the increased limits as set out in Regulation 71 of the UCITS Regulations.</p> <p>The Product may invest up to 15% of its Net Asset Value directly in shares issued by companies listed on the Shanghai Stock Exchange or the Shenzhen Stock Exchange, traded in foreign currencies and available for investment by domestic (Chinese) investors and foreign investors. For the avoidance of doubt, the Fund may invest in China H shares. China H shares are issued by issuers which are incorporated in China and trade on the Hong Kong stock exchange. The Fund may invest more than 20% of its Net Asset Value in emerging markets.</p> <p>The Product may also (or alternatively) invest in financial derivative instruments (FDIs) which relate to the Index or constituents of the Index. The FDIs which the Product may use are futures, options (puts and calls), swaps (equity swaps and swaps on the Index), currency forwards and non-deliverable forwards (a forward contract that does not require settlement on maturity) (NDFs).</p> <p>The Product may also invest in ancillary liquid assets and money market instruments which may include bank deposits, depository receipts, certificates of deposit, fixed or floating rate instruments (treasury bills), commercial paper, floating rate notes and freely transferable promissory notes. The ancillary liquid assets, money market instruments and FDI (other than permitted unlisted investments) will be listed or traded on the Markets referred to in Appendix II of the Prospectus. Investment in ancillary liquid assets and money market instruments may be utilised in a variety of circumstances, including but not limited to, situations such as managing total exposure to cash and borrowing on a short term basis and in anticipation of participation in a rights offering.</p> <p>Furthermore, the Product may not invest less than 51% of its Net Asset Value in equity securities which constitute "equity participation" within the meaning of section 2, Article 8 of the German Investment Tax Act.</p> <p>Dealing Frequency: You may purchase and redeem shares in this Product on a daily basis and in accordance with the relevant notice period.</p> <ul style="list-style-type: none"> • Product's base currency: U.S. Dollar • Distribution policy: Income accumulated |
| Intended Retail Investor: | This Product is intended for all kinds of investors who are looking for capital growth and/or optimization and have an investment horizon which is at least equal to the recommended holding period shown below. Only those investors who have the ability to make an informed decision based on sufficient knowledge and understanding of the Product and the market and the ability to bear a loss up to a total loss of their investment should consider investing in the Product. The Product does not offer a capital guarantee. |

What are the risks and what could I get in return?

The risk indicator assumes you keep the Product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your Product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you. We have classified this Product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level and poor market conditions are very likely to impact the capacity of VanEck UCITS ETFs plc to pay you. **Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies.** This Product does not include any protection from future market performance so you could lose some or all of your investment. The following risk may be materially relevant to the Product but may not be adequately captured by the summary risk indicator and may cause additional loss: Liquidity Risk and Risk of Investing in Small- and Medium-Capitalization Companies as further described in the Prospectus.

Performance scenarios and the assumptions made to produce them:

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product over the last 10 years. Markets could develop very differently in the future.

| Recommended holding period: 5 years. | | | |
|--------------------------------------|---|--------------------------|---------------------------|
| Example Investment: USD 10,000 | | | |
| Scenarios | | If you exit after 1 year | If you exit after 5 years |
| Minimum | <i>There is no minimum guaranteed return. You could lose some or all of your investment.</i> | | |
| Stress | <i>What you might get back after costs</i> | USD 620 | USD 0 |
| | Average return each year | -93.77 % | -88.22 % |
| Unfavourable | <i>What you might get back after costs</i> | USD 1,110 | USD 0 |
| | Average return each year | -88.89 % | -88.22 % |
| Moderate | <i>What you might get back after costs</i> | USD 11,720 | USD 21,180 |
| | Average return each year | 17.19 % | 16.20 % |
| Favourable | <i>What you might get back after costs</i> | USD 22,500 | USD 37,050 |
| | Average return each year | 124.97 % | 29.94 % |

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. Where applicable for the unfavourable, moderate and favourable scenarios: The unfavourable scenario occurred for an investment between November 2021 and November 2022. The moderate scenario occurred for an investment between July 2012 and July 2017. The favourable scenario occurred for an investment between April 2016 and April 2021. Your maximum loss would be that you will lose all your investment.

What happens if VanEck UCITS ETFs plc is unable to pay out?

The failure of the Manufacturer has no direct effect on your payout, as the statutory regulation provides that in the event of the insolvency of the Manufacturer, the Product does not become part of the insolvency estate but is maintained in its own right. Fund investments do not fall within the scope of any guarantee or compensation scheme.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- USD 10 000 is invested

| Cost over time | | |
|-------------------------------|--------------------------|---------------------------|
| | If you exit after 1 year | If you exit after 5 years |
| Total costs | USD 17 | USD 84 |
| Annual cost impact (*) | 0.2 % | 0.2 % |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 17.0 % before costs and 16.7 % after costs. We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount.

| Composition of Costs | | |
|--|--|--------------------------|
| | One-off costs upon entry or exit | If you exit after 1 year |
| Entry costs | We do not charge an entry fee. | USD 0 |
| Exit costs | We do not charge an exit fee. | USD 0 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 0.7 % of the value of your investment per year. This is an estimate based on actual costs over the last year. | USD 65 |
| Transaction costs | -0.5 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell. The minimum of explicit transaction costs is USD 3. | USD -48 |
| Incidental costs taken under specific conditions | | |
| Performance fees (and carried interest) | There is no performance fee for this Product. | USD 0 |

How long should I hold it and can I take money out early?

Recommended holding period: **5 years**

This Product is suitable for medium to long-term investment. Shares in the Product can in principle be redeemed on each dealing day. There are no costs or charges for such a transaction. The Manufacturer may suspend redemption if exceptional circumstances make this appear necessary taking into account the interests of the investors as outlined in the Prospectus. Investors will be able to buy and sell the Product on exchange. The Manufacturer may limit redemption requests if the number of shares of the Product redeemed represents more than 10 % of the total net asset value on that dealing day. Investors will be able to buy and sell the Product on exchange.

How can I complain?

You may send any kind of complaints about the Product or the conduct of the Manufacturer/Management Company to us via email to complaints-europe@vaneck.com or via letter to either VanEck (Europe) GmbH, Attn. Compliance/Complaints Handling, Kreuznacher Str. 30 60486 Frankfurt/Main, Germany or VanEck Asset Management B.V., Barbara Strozilaan 310 1083 HN Amsterdam, Netherlands.

For further information please see [Complaints Handling Procedure](#). In case of complaints about any advice regarding the Product, and related to the acquisition of the Product, please directly contact the person who sold the Product to you or advised you to acquire the Product.
